

# Mechatronic Engineer

Предпочитаемая страна: Швеция  
Зарплата: От 2000 EUR  
Направление деятельности: It, компьютеры, интернет  
Тип работы: Полная занятость  
Готов к переезду: Да

## Описание резюме

Design and maintenance of mechatronic systems and industrial robots.

## Опыт работы

01.09.2018 – По настоящее время

**Minsk State College of Electronics.**

**Head of Laboratory of Industrial Electronics**

Developed several courses on PLC programming (Siemens PLC 1200, 1500), Robotics programming (CIROS 6, Mitsubishi RV-2SDB, RV-2AJ) and Industrial line assembly (Festo MPS), which resulted in changing the existing mechatronics course toward more PLC and robotics oriented, and expanding the list of possible job opportunities for students. ● Taught courses on Robotics Programming on customer demand. ● Did programming of Mitsubishi's robots on customer demand. ● Programmed Human Machine Interfaces for industrial customers on demand. ● Put new equipment into operation, which expanded the list of taught specialties in the college. ● Participated in recruiting of students for college and their further development for the next WORLDSKILLS as a Judge.
